HANDBOOK
2018 – 19

As founder Chairman of the Velammal Group of Institutions, I deem it a unique privilege for me to communicate with you.

At the very outset, I extend a hearty welcome to those desirous of joining our "fold". I also consider it my duty to familiarize you with the Trust, its aims, objectives, vision and mission and the institutions governed by it, etc.

The Vision of Velammal

To uphold the social values while helping the society to develop technologically and morally by providing education of global standards, Thus bringing about emancipation in the society through knowledge and wisdom.

Every year, all our institutions maintain the admirable trend by achieving 100% pass results. They climb to greater heights by securing overall state ranks, subject state rank marks, etc. Our performance in academics is indeed praiseworthy, yet we do not tend to neglect the co- and extra- curricular activities.

In the global trend of the phenomena of the survival of the fittest and the fastest, the students of these days are expected to equip themselves to face the challenges of life at the global level. No doubt, the trust spares no efforts whatsoever in this particular direction. We ensure that our students are well acquainted with the great personalities, and luminaries whose very presence is a motivating factor. The trust honors the students who excel in the academics and sports with free education and suitable cash incentives as may be necessary to encourage them to perform better, and others to emulate their examples.

In a nutshell, I feel elated to assert that all our students, on completion of their studies in our group of institutions are molded into capable citizens of tomorrow, thereby making the dreams of their parents, society come true. And above all, they represent our nation at the global level. It is only when we achieve this target, do we sit back and fondly reminiscing over our achievements and no doubt, and we are also spurred to perform still better.

Let me once again welcome you into our fold and hope you will also utilize this gifted opportunity to its fullest extent to finally emerge as one among the brightest stars in the horizon of success.

I wish you all the best and hope you have a pleasant and memorable stay in our midst.

INTERNAL ASSESSMENT
EVALUATION OF STUDENTS PERFORMANCE

The academic performance of a student in each course (subject) in a programme (UG or PG) is assessed by Anna University, Chennai by conducting written examination, projects and viva voce in two parts namely internal assessment and external assessment awarding 100 marks in total. In this the internal assessment is done by the college for 20 marks and the external assessment is done by the University for 80 Marks. That is, tests and examination for internal assessment are conducted and evaluated by the concerned college and the examinations for external assessment are conducted and evaluated by the university.

INTERNAL MARKS – MODE OF ASSESSMENT

Internal assessment plays a crucial role in the process of evaluating the performance of students. It facilitates the students:

i. To acquire in-depth knowledge in the subject;

ii. To score higher marks and distinctions in the university examination; - So, loosing even a single mark will enable the students either loosing the exam or distinction;

iii. Easy coverage of syllabus at the time of final examination;

iv. Providing leverage and competitive advantage to the students

At this point, it is informed that even though the Cycle Tests and Model exam are conducted and corrected by the faculty of concerned college, the Internal Assessment of Marks for each subject (20% weightage) will be calculated by Anna University only based on the performance in Cycle Tests and Model Exam conducted by the College. Skipping a test, in this regard, will render the students helpless without a chance for retest. Hence, students are requested to concentrate on cycle tests and model examination right from the beginning of each semester.

In this connection, each college has to upload the details pertaining to attendance of the students in four phases and the details of test marks in three phases in each semester in the University Website, which will be opened at specified timings. It is up to the University to assess the marks for Internal Assessment. However, the students can verify their attendance and mark details periodically in their University Home page. Discrepancy, if any, has to be brought to the notice of the examination cell of the college and class in charge of the department immediately for remedial action by the University.

(l) IMPORTANCE OF COMMUNICATION SKILLS

VCET would like to see that there is 100% placement with every batch and every year. In addition to the sound technical knowledge, the students need to have commendable communication skills. The Department of English has taken the responsibility to play the pivotal role in honing the communication skills of students. The Mission of the Dept. of English includes:

- To encourage and insist on the extensive use of English language.
- To adopt innovative, interactive and technology-driven teaching – learning process.
- To assist in the preparation for career advancement avenues like TOEFL, IELTS, BEC, GRE and other proficiency exams.
- To exploit the potential for placement.
- To arrange for personality development activities.

The two section language labs (a) Computer Based Language Lab (b) Audio visual Language Lab. are extensively utilized as an effective English language teaching-learning tool.

Students are advised to be aware of the following communication barriers and overcome these:

- Shyness
- Limited vocabulary
- Inaccurate grammar
- Lack of fluency
- Imperfect pronunciation
- Lack of active listening
- Fear of speaking in public
- Fear of expressing one's views
- Lack of confidence

- Lack of exposure and practice
- Fear of making mistakes
- Lack of interpersonal skills
- Lack of group skills
- Thinking in one's mother tongue and translating into English
- The 'I am not okay, you are okay attitude'

Ways to overcome the communication barriers:
- Develop a passion for English.
- While conversing in English with someone, give importance to the message and do not be preoccupied with the grammatical accuracy. Fluency over accuracy is accepted at the initial stage. On becoming fluent, one should try to improve grammar in communication.
- Accept yourself as you are. Do not compare yourself with others.
- Practice and exposure are very important.
- Whenever you get an opportunity to speak in front of others, make use of it. Face the audience boldly.
- Think in English. If you think in your mother tongue and speak in English, it may not sound natural. Though it is difficult, it's not impossible.
